Incident Circumstances	Applicator certified PCO? Yes No U <u>X</u>			
	How exposed: (examples include direct contact with treated surface, ingestion, spill, drift, runoff) See MRPC incident report (next page)	Brief description of incident circumstances. See MRPC incident report (next page)		

**Human Exposure / Adverse Effect Incidents
Involving Monsanto Agricultural Products**

Reporting Categories: H-A, H-B, H-C

Reporting Period: July 1, 2018 – July 31, 2018

Substance:	Roundup Weed and Grass Killer 1 Ready to Use from Monsanto
Serial Number:	32487609
Date:	07/23/2018
Medical Outcome:	Moderate Effect H-C
EPA Reg. No.	71995-23
Active Ingredients:	Glyphosate 1.92%
State:	Indiana
History and Notes:	<p>Caller has been using Roundup Ready to Use since May. The last time it was used was 2 weeks ago. She has been having a rash all summer. The rash was noted from her wrists going up the arms. She has been put on 2 rounds of steroids. Shingles, sun poisoning, poison ivy and poison oak have been ruled out. MRPC discussed the product toxicity. The symptoms are not consistent with the expected response to the product. The product can result in a rash, but it is not a traveling rash. Caller did not wear gloves and likely got some spray on her hands and fingers but not her arms. Advised to remain under care of MD. MRPC is available to answer questions if needed.</p>
